

Organic Crop Protectants

Approved for use in organic gardens

# eco-hydrate™

## Soil Wetter & Moisture Attractant

**ACTIVE INGREDIENT: 270g/L ORGANIC HUMECTANTS,  
110g/L ORGANIC SOIL SURFACTANTS**

**ENRICHED WITH SEAWEED EXTRACT,  
FULVIC AND AMINO ACIDS**

**CONTENTS  
500mL**

TREATS  
UP TO  
**200m<sup>2</sup>**

Y20-4056

- Improves water penetration
- Boosts moisture retention
- Cuts water use
- Reduces plant stress
- 100% biodegradable

### OCP ECO-HYDRATE WORKS IN 5 WAYS

1. Powerful soil wetter improves water penetration and absorption
2. Organic humectants attract and direct additional moisture to the roots
3. Added seaweed helps plants cope with stress related to lack of water
4. Specific amino acids assist plants to use water more efficiently
5. Fulvic and amino acids along with seaweed help improve soil structure and moisture retention

### DIRECTIONS FOR USE

SITUATION	RATES	HOW TO USE
Lawns	10mL per 9L watering can	Apply evenly to 4m <sup>2</sup> of lawn
Garden Beds & Veggie Patches	20mL per 9L watering can	Apply evenly to 4m <sup>2</sup> of garden beds
Pot Plants, Hanging Baskets, Containers	20mL per 9L watering can	Thoroughly water the container so all the potting mix is treated

Y20-4057

Re-apply monthly during hot weather if required. Safe for natives.

**NOTE:** Rinse off any residual product from plant foliage as eco-hydrate only works within the soil.

**SAFETY DIRECTIONS:** Avoid contact with eyes and skin and wash hands after use.
