MALE QLD FRUIT FLY WICK

ACTIVE CONSTITUENTS: 0.5 mL/wick MALDISON
(an anticholinesterase compound)
1.0 mL/wick 4- (P-ACETOXYPHENYL)-2-BUTANONE

An Attractant for the male Queensland Fruit Fly
(*Bactrocera (Dacus) tryoni*) containing an insecticide.

REFILL FOR USE IN ECO-LURE FRUIT FLY TRAP

NET CONTENTS: 1 impregnated wick (2 g)

**TRAP
REFILL**

DIRECTIONS FOR USE

1. Push hook through hole in trap lid and into wick holder.
2. Hang in tree at head height.
3. Empty trap and record fly numbers weekly.

Hang the **eco-lure** trap containing the **eco-lure** wick within foliage of the host crop plant. Traps may be placed around the orchard perimeter to indicate source direction of flies entering the orchard. 1 or 2 traps in the centre of the orchard can be used to indicate the efficacy of the control program.

The wicks will attract male flies from up to 400 metres. **eco-lure** trap catches will vary depending on local sources of infestation and fruit fly population dynamics at the time. Local experience will help to determine the significance of trap catches. **eco-lure** wicks should be replaced after 3 months.

NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.

IMPORTANT: **eco-lure** wicks are a monitoring tool only and should be used in conjunction with a routine baiting program or cover sprays (or a combination of both) to effect control of Queensland Fruit Fly. Regular monitoring of the crop for egg-laying activity by female flies should be employed in addition to the use of **eco-lure** wicks.

PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT

DO NOT contaminate streams, rivers or waterways with the chemical or used containers.

STORAGE AND DISPOSAL

Store in the closed, original container in a dry, cool, well-ventilated area out of direct sunlight. Dispose of empty container and used wicks by wrapping in paper, placing in plastic bag and putting in garbage.

SAFETY DIRECTIONS

Avoid contact with eyes and skin. Wash hands after use.

FIRST AID: If poisoning occurs, contact a doctor or Poisons Information Centre. Phone Australia 131126.

FOR EMERGENCIES ONLY CALL: 1800 033 111 (24 HOURS).

LIABILITY: This product must only be used as directed. OCP will not be liable for any loss or damage due to a failure to strictly follow label directions.

® **eco-lure** is a registered trade mark and the OCP drop device is a trade mark of Organic Crop Protectants.
