READ SAFETY DIRECTIONS

eco-fungicide[®]

HOME GARDEN FUNGICIDE READY TO USE

ACTIVE CONSTITUENT: 3.8 g/L POTASSIUM BICARBONATE

FOR THE MANAGEMENT OF FUNGUS DISEASES IN ROSES,
GRAPEVINES, GERANIUMS, VEGETABLES & STRAWBERRIES IN
THE HOME GARDEN AS PER DIRECTIONS FOR USE.

CONTENTS
750 mL

ORGANIC CROP PROTECTANTS
1956 Dandenong Rd, Clayton VIC 3168

HOW TO USE SHAKE WELL BEFORE USING

DO NOT apply to plants suffering from heat or moisture stress.

PLANTS	DISEASE	HOW TO APPLY
Tomatoes, Capsicums, Cucumbers, Strawberries, Zucchini	Powdery Mildew	Begin spray application at first sign of disease. Repeat spray application at 7-10 day intervals. Use the shorter repeat interval under conditions of rapid plant growth or severe disease pressure. Spray to ensure complete and thorough coverage of all plant surfaces. Pay particular attention to the underside of leaves.
Roses	Powdery Mildew Black Spot	
Geraniums (<i>pelargoniums</i>)	Rust (<i>Puccinia pelargonii-zonalis</i>)	Begin spray application at first sign of disease. Repeat spray application at 7 day intervals. Spray to ensure complete and thorough coverage of all plant surfaces. Pay particular attention to the underside of leaves.
Grapevines	Powdery Mildew (<i>Oidium</i> spp.)	Begin spray application at first sign of disease. Repeat spray applications at intervals of 10 to 14 days as new growth or infection occurs, or if conditions favour disease. Spray to ensure complete and thorough coverage of foliage.

NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED.
WITHHOLDING PERIOD (WHP): NOT REQUIRED WHEN USED AS DIRECTED.

HOW TO PREPARE: eco-fungicide is a contact fungicide containing activated potassium bicarbonate that requires direct contact with the fungus organism for control. eco-fungicide disrupts the fungus cell, causing the cell walls to collapse. However, under conditions highly favourable to the disease, control may not be achieved and suppression only can be expected. eco-fungicide rapidly kills both spores and hyphae.

APPLICATION: Contact with the disease organism is essential for control. Ensure plants are not suffering from stress (e.g. heat or moisture stress) when treating high levels of fungal infection, as water loss from the infection site can cause death of plant tissue. Shake container periodically whilst spraying.

CAUTION: DO NOT allow chemical containers or spray to get into drains, sewers, streams or ponds.

STORAGE AND DISPOSAL: Store in the closed, original container in a cool, dry place out of the reach of children. Do not store in direct sunlight. Dispose of empty container by wrapping in paper, placing in plastic bag and putting in garbage.

SAFETY DIRECTIONS: May irritate the eyes. Avoid contact with eyes. Wash hands after use.

FIRST AID: If poisoning occurs, contact a doctor or Poisons Information Centre. **Phone Australia 131 126.**

FOR EMERGENCIES ONLY CALL: 1800 033 111 (24 HOURS).
