

eco-lure[®]

Male Queensland fruit fly

**FRUIT FLY
TRAP**

120-2083

The **eco-lure** trap is a monitoring tool for male Queensland fruit fly and contains a wick to attract and kill male Queensland fruit flies. Open and assemble the wick then hang the trap amongst crop foliage. When flies first appear in the trap we recommend you apply **eco-naturalure** fruit fly bait concentrate according to the label instructions to control fruit flies. Please note the **eco-naturalure** solution should not be put into the **eco-lure** trap.

EAN BARCODE
9336099000098
